

the National railway. Constitutional party burned the new \$6,000,000 post office building. Another troop train blown up near San Luis Potosi. President Diaz has to go to the presence of a thousand rebels within striking distance of the city.

**Military Escort Wiped Out**

A passenger who arrived here today from San Luis Potosi told a story of wiping out of a military escort train men on a train bound from Tamaulipas to San Luis Potosi four days ago. He said the railway line since then was open and traffic unimpeded.

The story of this man, who said he was a passenger on the train, was

## HAD CATARRH OF THE STOMACH.

Persons Suffered a Sufferer

Y. A. M. Ward.

no cure. I almost thought the same. For my breath was offensive and I did not eat anything without great misery, and I gradually grew worse. I finally concluded to try Peruna, and I found relief and a cure for that dreadful disease, catarrh. I took three bottles of Peruna and two of Manly and I now feel like a new man. It is nothing better than Peruna. I keep a bottle of it in my house all the time.

It is a remarkable story that Mr. Ward tells. It is a true story, but very hard to tell. It is a story of a sufferer who was in a state of misery and agony, and who was unable to do anything but suffer.

Mr. Ward says that he was in a state of misery and agony, and who was unable to do anything but suffer.

Mr. Ward says that he was in a state of misery and agony, and who was unable to do anything but suffer.

## AMERICAN RAILROADS MAY ADOPT EUROPEAN CLASSIFICATION PLAN

Let Rich Pay for Luxuries, While Poor Pay Only for Transportation

By SIDNEY ESPEY.

WASHINGTON, Nov. 29.—As a result of the constant cry of railroads for increased revenue and the opposing demands of the shipping traveling public for lower rates, it is possible that the classification of passenger travel now common in Europe may be adopted by American railroads. The proposition has the support of some members of congress, who believe that the system could be put into effect in such a way that the poor could travel more cheaply than they now journey, and the rich, by paying added rates, could have the luxurious appointments which they demand in railroad travel. There are commonly three classes of passenger accommodations on European trains and in some continental countries there are four classes. The rates bear a fixed relation to each other. In the same way the accommodations bear a fixed relation. First class travel being very comfortable while fourth class offers little compensation for its discomforts except the fact that the traveler eventually reaches his destination. Second class travel is the standard travel abroad.

How Class Distinctions Are Made.

It is predicted that something of this kind may result in America from long continued agitation over railroad rates. Second class travel accommodations would be those of the more comfortable 4th coach and perhaps the tourist sleeper. First class travel would comprise Pullman drawing rooms, observation platforms, writing rooms, libraries and the fine appointments of first class travel. Below second class travel the railroads may provide for a more extensive equipment and slower trains. If the plan is ever adopted, the details must, of course, be worked out by the railroads in conjunction with the interstate commerce commission.

Such a system is in partial operation in the United States today. There are a number of "extra" trains, called "tourist" trains, which are run at a rate of 1/2 the regular rate. And there are "extra" trains, called "tourist" trains, which are run at a rate of 1/2 the regular rate.

As a result of the rate reduction, it is predicted that something of this kind may result in America from long continued agitation over railroad rates.

Christmas Seals and Stickers

A complete assortment of seals, stickers, letters, cards, etc., etc., now being shown in our stationery section, 1st floor.

## Electroliers For Xmas Gifts

We are showing the most complete assortment ever shown in our store at the most popular prices. Exquisite brass frames and artistic shades, in square, round and hexagonal shapes. We quote a few of the many numbers:

Electrolier, square brass base and standard, amber art glass shade, 6 feet of cord. 3.45

Electroliers, round brass base, brush brass frame, colored art glass shade, 6 feet of silk cord. 4.25

Electrolier, with 13-inch glass and amber art glass shade, heavy brass base, 6 feet of cord. 4.75

Electric reading lamp, with weighted bottom, flexible stand, dark green enameled finish, 5 1/2 feet of silk cord; each. \$5

Electrolier, round cast base, brass column, 16 1/2-inch shade, green tint art glass panels, 2 pull chain sockets; each. 12.50

Electrolier, spun brass base and column, 14-inch shade, alternating green and amber panels, 6 feet of silk cord. 7.50

Electrolier, brass base, 18-inch beaded glass shade, green and amber art glass, 2 pull chain sockets; each. 12.50

Electrolier, heavy metal base, art glass shade with scroll border, 2 sockets, 6 feet of silk cord. 6.95

Special Prices on

Mazda Lamps

Buy a Sterling Mazda lamp that does not leak for every socket. Get all the light you pay for.

With the same amount of current consumed, Sterling Mazda lamps will give three times as much light as carbon lamps.

They fit any socket, burn in any position, stand shocks and vibration, don't fall noticeably in efficiency, don't discolor with age, and give a more serviceable and delightful illumination than you can possibly get with carbon lamps.

# MINARET INFLUENCE EXTENDS TO COATS

NEW OUTERGARMENTS MADE WITH THE  
OUTSTANDING TUNIC; WASH  
FROCKS FOR WINTER

NEW YORK, Nov. 29.—Fascinating has been the influence of the Minaret, and the fact is not yet quite as surprising to M. Poiret as it was to the rest of the world. It has been the revolutionary effect upon dress produced by his costume of this remarkable French play. It is reported with just how much accuracy we cannot say, that M. Poiret, when mixed with the impracticability of the distended tunic, retorted that he had never intended it for private life, but for the stage alone.

Minaret Dancing Gown of Old Blue Satin and Oriental Chiffon.

Wanted it, and with a strong and decorative gesture of the hands. "What was I to do?" He that as it may, the whole thing, whether we designate it by the name of the Minaret, the large skirt or the Minaret, has become an article and recognized fashion of cosmopolitan acceptance. Hereafter, however, it has been with few exceptions confined exclusively to gowns.

## THREE WOMEN TESTIFY

To the Merit of Lydia E. Pinkham's Vegetable Compound during Change of Life.

Streator, Ill.—"I shall always praise Lydia E. Pinkham's Vegetable Compound wherever I go. It has done me so much good at Change of Life, and it has also helped my daughter. It is one of the grandest medicines for women, with beneficial results."—Mrs. J. H. CAMPBELL, 206 N. Second St., W. S., Streator, Illinois.

Philadelphia, Pa.—"It was at the 'Change of Life' that I turned to Lydia E. Pinkham's Vegetable Compound, finding it as a tonic to build up my system, with beneficial results."—Mrs. J. H. CAMPBELL, 206 N. Second St., W. S., Streator, Illinois.

San Francisco, Cal.—"I have taken Lydia E. Pinkham's Vegetable Compound for many years whenever I would feel bad. I have gone through the Change of Life without any troubles and thank the Compound for it. I recommend it to young girls and to women of all ages."—Mrs. C. BARRIE, 3052 25th St., San Francisco, Cal.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be answered by mail.

Some expressions of this idea have been made manifest. That which is most frequently seen, and which is least extreme, takes form not unlike an elongated Russian blouse. The blouse proper is quite scanty, and usually ends above the waistline, with an upward tilt at the front. From this is hung a very full tunic falling well below the knees. Ordinarily, but not necessarily, there is a broad belt or girdle of some kind and there may be a single large tassel. In fur these coats are stunning the thickness of the belt and the fullness of the tunic causing the latter to stand off from the body almost as though artificially stiffened. Seal moleskin and ermine are some of the furs in which this new coat has made its appearance.

In duvetyne it is almost equally rich. Dark green, trimmed with skunk, made one model. The fur was applied in a broad band at the edge of the tunic, and also along the front closing of the coat, which was straight up and down from neck to lower edge. The duvetyne was of very heavy quality, and in this coat, also, the tunic was unstiffened. A cloth model, however, had the tunic interlined with ermine to give the desired outstanding effect.

The coat with the flaring lower edge is seen in another entirely different form, cut skirt and waist sections in one, the fullness being introduced at the seams below the waist. This expression is more extreme and less likely to meet with immediate acceptance. Some such outer garment is absolutely essential if we are to wear gowns with the distended tunic, as fashion seems determined we shall. In every evening assembly the Minaret costume is well represented, and there is no denying its charm once one has grown accustomed to its artificiality of line. Especially is it attractive when the tunic edge is bent irregularly here and there, breaking the hooplike effect.

We are illustrating a very charming crinoline worn by a pretty debutante. The foundation was old blue satin of an exquisite lustrous quality. Over this was hung a tunic of embroidered chiffon in an oriental pattern, comprising rich tones of yellow, orange, blue, rose, purple, red and green combined in blending harmony. The tunic was edged with a blue and silver fringe. The bodice consisted of a

Tub Frock of a New Fabric, Embroidered, Plaid-Bordered Voile.

Foundation of old blue chiffon upon which was imposed soft drapery of the embroidered tissue. The very short sleeves were trimmed with the blue and silver fringe, and the neck of the bodice was outlined with a double row of pearl in beads, exactly duplicating the old blue tone of the chiffon. About the waist was a wide girdle of thick tulle, edged in a huge bow at the back. Just above this girdle came a double row of ruffles of the main fabric.

Dancing costumes are now the subject of much interest. But it is not to be supposed that the feminine enthusiast for the dance is properly attired when simply gowned in a pretty, dressy gown. Every article of apparel must conform to terpsichorean requirements. Dancing shoes, of course, and these are now most fashionable when modeled after the Greek coturnum with a broad flat heel attached. Heavy summer many fantastic articles are one of the latest novelties being made of large-mesh hexagonal net.

## This Great Toy Stock

Is the wonder of every child who has seen it and the subject of most favorable comment of the hundreds of men and women who attended our opening display last week. The unusually brisk buying is another indication of what the public think of this stock. Come in this week and join the "early shoppers," the portion of the buying public that is becoming decidedly greater from year to year.

Toys, Dolls, Games, etc., in Basement. Trees and Tree Ornaments Second Floor

black and white, worn over plain hose matching or contrasting with the gown. The "tango" corset has become quite a matter of course. This is the merest girdle above the waist, silky and supple, and made with elastic inserts below the waist to permit perfect freedom of movement. "Tango" undergarments are designed to allow free play of the limbs. The dancing corset, which fits close to the head, keeping the corset firmly in place, but with no upstanding ornament to annoy one's cavalier, is a pretty conceit.

Modern methods of house heating are responsible for the delightful custom of wearing wash frocks in winter. There is no good reason why a woman living in a steam-heated house or apartment should not assume the simplest sort of apparel indoors and many are availing themselves of this privilege. The second figure illustrates a very smart gown worn by a bright little woman who makes her own clothes. The material is an absolute novelty. A white cotton voile is embroidered with a double border of plaid in old blue and maroon. The first border is eight and a half inches wide, the second, which came after a plain interval of four inches is three and a half wide. The skirt proper comes what's ants in width, is of plain voile, matching in quality the foundation of the embroidery. Over this is hung a tunic of the bordered fabric drooping long over the right hip. The bordered material is used for the surplice waist. Simple in its basic lines the gown is very smart and unusual by the use of this unique fabric.

growing up? A handsome woman who is chaperoning two granddaughters and a grandniece at a fashionable summer resort shook her head as she repeated the question, seemingly hopeless of finding an answer.

"One reason is because the boys don't go about it in the right way," her husband said coming to her assistance. "Why would you have said to me, my dear, if after chasing you around a tennis court on a hot afternoon I had asked you to marry me?"

The grandmother smiled and shook her head.

"Of course you would have given me the mitten and I should have deserved it," the grandfather went on. "Just think of the way that young man treated Agnes. About the hottest night we have had this summer she came out here and told us she was engaged. That young fellow had been jumping around the ballroom with her—they called it the tango I believe. That was when it happened. Why in my day a man would never have thought of proposing in such a way."

How did we manage it?" he repeated the question thoughtfully, then continued. "There were the granddaughters. Yes, we girls liked to be serenaded by the grandmothers, and smiling as they sat at pleasant memories."

Then we used to send a lot of flowers, I think? He glanced at his wife questioningly. We all knew the meaning of flowers.

You see, we were not so strenuous in those days especially in the south. We went about things more gently. At first we would get a number of fellows and we would make the rounds of the neighborhood serenading every house where there was a girl of marriageable age. Then, as things pro-

## 400-lb. Shipment of Huyler's Famous Candies

In announcing this addition to our Christmas stocks it is unnecessary to dilate on the merits of Huyler's candies which are probably the best and most favorably known sweets produced in this country or abroad. Some folks think that Huyler makes only Fine Bonbons and Chocolates (the best in the world), but a glance through this stock will show that the assortment includes scores of novelties in the candy line. They are always putting up some newly attractive novelty, some cute little jar of sweets, or some cleverly designed, dainty, exquisite packages that appeal to all lovers of pure candy.

1, 2, 3, 5-pound packages and smaller.

**Becker Victim of**  
**Conspiracy, Says**  
**Brief in Appeal**

NEW YORK, Nov. 29.—Twenty-five reasons why former Police Lieutenant Charles Becker should not be executed for the murder of Herman Rosenthal, the gambler, will be presented next week to the state court of appeals. Becker is now in Sing Sing prison under sentence of death. His attorneys said today that the court probably would devote four days to hearing arguments on Becker's appeal from conviction.

"Becker," says the appellant's brief, "is a victim of the greatest conspiracy of the age. He was not given a chance for his life. The effect of the ruling of the court made the trial a mockery."

One of the principal arguments in Becker's behalf will be that Sam Schepps, the chief corroborative witness for the state, was an accomplice. His attorneys claim that the trial was rushed through and that Becker was convicted by public opinion.

An appeal also will be presented in behalf of the four gunmen convicted of the crime—"Whitey Lewis," "Dago Frank," "Lefty Louie" and "Gyp the Blood." In their case more than 150 errors are alleged in the ruling of the trial judge, and 18 reasons given for a reversal.

**COL. ROOSEVELT IS MET**  
**BY ARGENTINE OFFICIALS**

BUENOS AIRES, Nov. 29.—Argentine officials today met Colonel Theodore Roosevelt at the frontier on his return from Chile. Colonel Roosevelt is now going to Lake Nahuel-Huapi, the source of the Limay river in western Argentina. Lake Nahuel-Huapi is at an elevation of about 2,000 feet and is 30 miles long.

**TEMPLES IN MANCHURIA**

PERKIN, Nov. 29.—The discovery of fifth century cave temples in Manchuria was reported today to the Smithsonian Institution at Washington by Langdon Warner, assistant curator of the Boston Museum of Fine Arts. The discovery is regarded as of great historic value.

Mr. Warner left for the south to make extensive explorations in the interior.

**QUICK AND SURE**  
**STOMACH DOCTOR**

"Pape's Diapiesin" ends Indigestion, Gas, Sourness in five minutes

Time it! Pape's Diapiesin will digest anything you eat and overcome a sour, gassy or out-of-order stomach surely within five minutes.  
If your meals don't fill comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.  
Get from your pharmacist a fifty-cent case of Pape's Diapiesin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.  
Pape's Diapiesin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there.  
Relief in five minutes from all stomach misery is waiting for you at any drug store.  
These large fifty-cent cases contain enough "Pape's Diapiesin" to keep the entire family free from stomach disorders and indigestion for many months. It belongs in your home.

**GOVERNMENT ATTACKS**

(Continued from Page One)

enter the fields, contracts by consumers to buy from the trust exclusively and arbitrarily fixing of prices.  
Attorney General McReynolds asked in the bill for a dissolution other than on a pro rata basis by asking for a separation into units of different ownership to insure the restoration of competition.

**Conspiracy Began in 1901.**  
The government's bill was filed by William T. Chantland, special assistant to the attorney general and was signed by W. C. Todd, the assistant to the attorney general in charge of trust prosecutions.

It declares that the alleged conspiracy and combination in restraint of trade was entered into in 1901.  
J. Hobart Moore, Daniel G. Reid, Frederick S. Wheeler, Henry W. Phelps, William T. Graham and George G. McMurtry are named as active in its formation.

The American Can company, the principal defendant, was incorporated in New Jersey with a capital of \$25,000,000 and within a few months the government charges, obtained control of about 100 can manufacturing plants which formerly had been independent.

The government hopes to prove that for some time after organization the American company controlled about 55 per cent of the trade. While that quantity is admitted to have diminished, it is said now to be close to 50 per cent, and the American company is declared to be the dominating factor in the business.

**Also Had Other Concerns**  
In agreements made with the American company by the concerns it absorbed, they were not to engage in tin can manufacturing within a radius of 5,000 miles of Chicago for 15 years subsequent to their acquisition.

The government alleges that the combination has at times increased the price of cans and that the domination of the market is so absolute that such independents as have come into being have been forced to follow its price.

**Under the new rule of the court** the defendants must appear and answer within 30 days after the service of the subpoenas and bill of complaint. The documents will be issued next Monday.

**NEW YORK, Nov. 29.** President Wheeler of the American Can company made the following statement today:

"This company is not disturbed by the action of the government. Neither in its origin nor in the conduct of its business has monopoly or restraint of trade been attempted. No unfair competition has been resorted to. There have been no agreements or understandings as to prices. The company has not sought in any way to dominate the trade nor has it any such share of it (only about one-third) as would enable it to do so if it wanted to. Competition is free and active. The company will defend the suit vigorously and confidently and it is the belief of its officers and counsel that no one interested in the company need feel any uneasiness as to the outcome."

**WASHINGTON, Nov. 29.**—Henderson S. Martin of Kansas and Clinton L. Riggs of Maryland were confirmed by the senate as members of the Philippine commission today, but no attempt was made to act on the appointment of W. T. Denison.

**"OW!" Corns?**

"GETS-IT," the New-Plan Corn Cure, Makes Any Corn Shrink, Vanish.  
You'll say, "It does heat all how quick 'GETS-IT' got rid of that corn. It's almost magic." "GETS-IT" gets every corn, every time, as sure as the sun rises. It takes about 2 seconds.

**OUCH! SORE, ACHING JOINTS.**  
**RUB RHEUMATIC PAIN AWAY**

Rub pain right out with a small trial bottle of "St. Jacobs Oil"

Rheumatism is "pain only." Not one out of fifty requires internal treatment. Stop dragging. Rub soothing, penetrating "St. Jacobs Oil" directly upon the "tender spot" and relief comes instantly. "St. Jacobs Oil" is a harmless rheumatism cure which never disappoints and can not burn the skin.  
"Lumber up." Quit complaining. Get a small trial bottle of "St. Jacobs Oil" from any drug store and in just a moment you'll be free from rheumatism, soreness and stiffness. Instant relief and a cure awaits you. "St. Jacobs Oil" is just as good for sciatica, neuralgia, lumbago, headache, sprains and swellings.

**WOULD REGULATE ISSUES**  
**OF RAILROAD SECURITIES**

Representative Sims Proposes Bill Protecting Public From Stock Gamblers

WASHINGTON, Nov. 29.—Regulation of issues of railroad securities was proposed in a bill introduced today by Representative Sims of Tennessee.  
It would prohibit interstate bonds from issuing any evidence of indebtedness except for some necessary physical purpose and then only with the approval of the interstate commerce commission.

Such provisions would not apply to notes maturing not more than one year after the issue, but such notes would not be permitted to aggregate more than five per cent of the aggregate of a corporation's stocks and bonds. All issues of capital stock, etc., contrary to provisions of the bill, might be enjoined by a court or by suit of any of the company's directors, officers or stockholders.

Violations would be penalized from \$1,000 to \$10,000, or from one to three years' imprisonment, or both. The bill was referred to the interstate commerce commission.

to apply it. "Even when you forget the corn, the corn shrivels up, and it's gone! Ever try anything like that? You never did. There's no more fussing with planters that press on the corn, no more salves that take off the surface, leaving the more dangerous. No more knives, files or razors that make corns grow, and cause danger of blood poisoning. "GETS-IT" is equally harmless to healthy or irritated flesh. It "gets" every corn, callus and bunion you've got.

"GETS-IT" is sold at all drug stores. It costs a few cents a box, and on receipt of 25 cents a box is sent on receipt of 25 cents a box.

at 25 cents a box is sent on receipt of 25 cents a box.

**SUFFRAGE LEADERS**  
**NOW IN WASHINGTON**

Senator Helen Ring Robinson of Colorado Takes a Prominent Part

WASHINGTON, Nov. 29.—With announced intention of starting speedily on its way an amendment to the federal constitution that will enfranchise women, suffragists by the hundreds arrived here today to attend the forty-third convention of the National American Woman Suffrage association. Such an amendment and the women's right to it, now that they vote on national questions in 10 states, is to be urged upon congress by the suffrage leaders, with vigorous determination. They also expect they will attempt to secure during their week's stay here an expression from President Wilson which might be regarded as the Democratic party's policy on the woman suffrage question.

Hotel lobbies buzzed tonight with discussion by groups of delegates of the questions which will come before the convention when it begins its sessions Monday. Arrival and certification of delegates, meetings of the official board and of the executive committee and a luncheon by the National College Equal Suffrage league, at which Dr. Anna Howard Shaw, president of the national association, Miss Jane Addams and other prominent leaders spoke, filled the day.

**Mass Meeting Today**  
Enthusiasm will be kept alive over Sunday by a mass meeting tomorrow at which Dr. Shaw, Miss Addams and Senator Helen Ring Robinson of Colorado will be speakers.

The executive committee at a meeting tonight took up for consideration two of the important matters which will come before the convention. One was the proposal to adopt a new constitution for the association in accordance with the recommendation of the constitutional revision committee. The other was as to the founding of a business corporation, capitalized at \$50,000, to be known as the National Suffrage Publishing company, which would have charge of the printing of suffrage literature for the affiliated and other associations. The trustees of the National American Woman Suffrage association would hold a majority of the stock so as to maintain control, although the directors of the company would not be of officers of the association.

**On Financial Basis**  
The purpose of the new legislation is to place the organization on a fixed financial basis with a budget to be presented each year to the convention for approval and assessments made on affiliated organizations in proportion to their budgets.

At the college women's meeting, Miss Addams declared the recently acquired franchise in Illinois already had given the women of that state great influence in needed reforms. Miss Lucy Burns of this city said one fifth of the senate, one-seventh of the house of representatives and one-sixth of the electors now come from states where women vote on national questions.

A "men's league for woman suffrage" whose main object is to work for the suffrage amendment has been organized here with Dr. Harvey W. Wiley as its president.

**WOMEN ASK DIRECT**  
**VOTE IN KANSAS NOW**

TOPEKA, Kan., Nov. 29.—Kansas women who met here today to formulate a declaration of principles to be placed before the various political party organizations of the state as an expression of what the women voters would have included in the platform in their next campaign, decided the first important and most needed legislation was the submission and adoption of a constitutional amendment providing for the initiative and referendum. With this direct vote and complete suffrage in Kansas, the women feel they can force any legislation women may be interested in.

The failure of the minimum wage law in the last legislature was cited as one of the reasons for the need of the direct vote, the women contending it and other laws would receive passage if placed directly before the people.

**NEW MEXICO OFFICIALS**  
**CAN'T GET THEIR PAY**

SANTA FE, N. M., Nov. 29.—For the first time in 13 years, the commonwealth of New Mexico is unable to pay the state officials and clerks of the various departments in full. The end of the fiscal year today saw salaries paid on a 50 per cent basis, with no assurance when the officials will receive the balance due, or in fact any future salaries, because of the middle arising out of tax and assessment litigation, which has brought about a financial crisis in the state. Because of this condition, rumors of a special legislative session are rife. Governor McDonald is silent on the subject. The Republicans, who control the legislature, are opposed to an extra session, while the Democrats believe one must be held to prevent the state going into bankruptcy.

**Women Quit Eating**  
**Eggs; Price Tumbles**

CHICAGO, Nov. 29.—Members of the Political Equivocal league and an eggless luncheon at a downtown hotel today because their guests, officers of the Clean Food club, said they would not attend if eggs were used in the food. The meal was so satisfactory that the women voted to hold a future eggless for two weeks if the price did

**CATARRH SUFFERERS! HERE'S A QUICK CURE!**  
**OPENS CLOGGED NOSE AND HEAD AT ONCE**

In One Minute Your Stuffy Nose and Head Clears, Sneezing and Nose Running Cease, Dull Headache Goes.  
Try "Ely's Cream Balm." Get a small bottle anyway, just to try it. Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone.

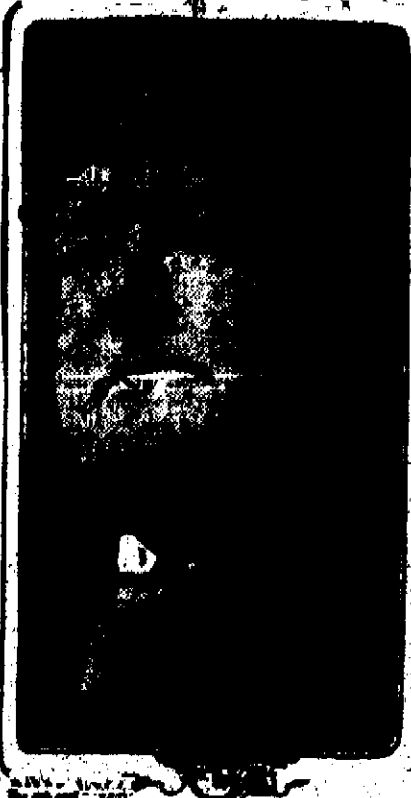

Put your faith in Ely's Cream Balm and your cold or catarrh will surely disappear.  
Ely's Cream Balm is sold at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and softens the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.  
Don't lay awake tonight struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucus dropping in the throat, and raw dryness is distressing but truly needless.

NEWSPAPERARCHIVE

NEWSPAPERARCHIVE

NEWS BOYS OVERRULE  
CHIEF JUSTICE

Chief Justice Edward White of the United States supreme court, who recently met his Waterloo when he attempted to stop two newsboys from fighting. The youngsters scornfully ignored the commands of the unknown dignitary and continued to pummel each other.

cancelling all Japanese land concessions.

The Oklahoma representative regards Mexico as a bad child which should be spanked and kept under strict surveillance. His plan seems to contemplate the final annexation of Mexico.

The difficulty which the opponents to this scheme find is that to annex a nation peopled by men not directly Caucasian nor English-speaking could never be successful. It is argued that the Americans coming in contact with the Mexicans would lose their racial integrity as would the Mexicans should they mingle too much with Americans. The ideals and race traditions of the two peoples are so greatly at variance according to these contenders that no benefit would accrue from such a union.

President Wilson's demand that Victoriano Huerta resign the presidency of Mexico forthwith is bitterly criticized in Washington by many students of the Mexican-American problem. At first the American president provided, in his program sent to Mexico, specific plans for the elevation of some successor to Huerta to the presidency.

His later notes, simply request to the Mexican president that it is desired he resign and permit the people to elect a head of the nation. Still later, President Wilson has announced that he does not recognize the Mexican congress elected October 26. Accordingly President Wilson finds his authority in Mexico which he deems it possible at this time to recognize.

## What Advisers Think.

Now this is what the knights of the round table, the informal privy councilmen at Washington, think of this latest stand of the administration.

What would be the difference between Paris, when Louis was beheaded and Mexico City, with Huerta out? And the answer appears to be "Not any." Paris was without a government of any form when the reigning dynasty fell. Mexico City would be in like desperate case. The turbulence of the "reign of terror" in Paris extended practically over all France. Would it not do likewise over all Mexico?

The capital city and the entire nation would be without order. There would be none to obey; no fountain-head of authority from hence might issue orders to quell the seething mob. Real anarchy would prevail in the opinion of many of the Mexicans at Washington, who have thought over the problem until they consider themselves adepts.

It has been shown too clearly by experience that difficulty enough is encountered in the holding of an election in Mexico when there is a recognized authority.

It is confidently believed that there would be increased difficulty, amounting to hopeless confusion, should any party of the people attempt to hold an election in Mexico, should Huerta be deposed or resign. The verdict of many really deep thinkers in Washington, despite the administration pronouncement, is that Huerta must stay.

And concerning this peaceful blockade it is unthinkable to many Washington officials. It has been called a "Grape Juice Blockade." To blockade the ports of a nation is to enter into a state of war with that nation. "Can there be such a thing as a peaceful blockade?" they ask.

Of course there are always a great many people ready at a moment's notice to solve difficulties, to settle disputes instantly, to volunteer information without authority and to declare final pronouncements on important matters at the drop of the hat. These men in Washington who have put forward the ideas reported above may be of this sort, and may not be. Even that is not a case for snap judgment. But, anyway, some of the opinions are interesting.

Panamerican Suffrage  
League Movement Is  
Launched in London

LONDON, Nov. 29.—Steps are being taken for the formation of a Pan-American League for women's suffrage. The Church League for Woman Suffrage is initiating the project, the prospect of success of which are claimed to be good.

The secretary of the league is to leave England at the end of January in order to start meetings in America. The colonies also will receive attention in due course. The league is now engaged in drawing up a petition to the house of commons in favor of woman suffrage, which is to be signed by the bishops and clergy of the Churches of England and Ireland and of the Scottish Episcopal Church.

FOR SICK CHILD

"California Syrup of Figs" can't harm tender stomach, liver, bowels

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping. When a child is irritable, feverish or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleaning" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy, they know a teaspoonful today saves a sick child to-morrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeits sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."

GENERAL CAMPBELL  
OF TRINIDAD DIES

TRINIDAD, Colo., Nov. 29.—Brig. Gen. Edward L. Campbell, who rose from a private to the rank of lieutenant colonel during the Civil War and judge advocate on the staff of General Meade, was found dead in his home in this city this morning. He lived alone and it is thought that he was stricken with heart disease Thursday.

The body was found by neighbors who entered the home when his disappearance became known. General Campbell was a native of New Jersey and served first in the War of 1812 and later in the first New Jersey volunteer. He was a Gettysburg survivor, was wounded at the battle of Antietam and Cedar Creek and fought at Cancellorville, Spotsylvania, second Bull Run and many other smaller engagements. He was 51 years of age and leaves a near relative.

He formerly practiced law here but for the past 10 years had led a retired life.

## LONG NOT GUILTY

DENVER, Nov. 29.—Samuel Long, Jr., of Kansas City, was found not guilty today of the murder of Philip Gandoval. Long killed Gandoval on September 11. He pleaded self defense.

WHAT DO YOU MEAN PEACEFUL,  
OR "GRAPE JUICE," BLOCKADE?

Mexican Problem All-Absorbing Topic of Conversation  
in Washington Political Circles

By JONATHAN WINFIELD.

WASHINGTON, Nov. 29.—The public discussion of the Mexican situation has been so heated during the past few weeks, that the temperature in Washington has risen to the warmth of an incubator, and as a result, many ideas have been hatched. President Wilson and Secretary of State Bryan have been busy formulating policies, but senators, representatives, cabinet members, diplomats from foreign countries, government clerks, street car conductors, bootblacks and newsboys—all have been busy, too. On every street corner the Mexican situation is discussed and almost every man has his idea of how the difficulty ought to be smoothed out.

Some of these plans are given expression upon the floor of the house or senate; some are discussed informally at congressional committee meetings, and still more of them are made the bone of contention at social gatherings of men in Washington, who, as

officers of the government, have a first hand interest in the case.

## "Alfalfa Bill" Has Scheme.

Representative William Murray of Oklahoma, familiarly known in this city and in his home state as "Alfalfa Bill" Murray, is one of the most prolific producers of schemes for getting us out of the present difficulties—or into more of them. Even the sage Senator Lodge of Massachusetts has expended the effort necessary to the promulgation of a plan for solution of the Mexican problem and members of the house unnumbered have fixed up everything to their hearts' content.

Representative Murray, in his opinion, has the proper thing to do, all sketched on paper. The main idea, he conceives, is for the United States to seize all Mexican customs houses along the border and coast and collect therefrom all revenues. He proposes the adequate policing of the republic and he especially emphasizes the need of

## "All is Well That Ends Well"

Along with dyspepsia comes nervousness, sleeplessness and general ill health. Why? Because a disordered stomach does not permit the food to be assimilated and carried to the blood. On the other hand, the blood is charged with poisons which come from this disordered digestion. In turn, the nerves are not fed on good, red blood and we see those symptoms of nervous breakdown. It is not head work that does it, but poor stomach work. With poor thin blood the body is not protected against the attack of germs of grip—bronchitis—croup—pneumonia. Fortify the body now with

## TEN ANTISUFFRAGE REASONS

Mrs. Hoodwink Explains Why Women Should Not Vote

From Life.

1. Woman's place is in the home. Antisuffrage speakers are proclaiming this from many public platforms. The millions of working women in the United States may obtain homes by applying to the antisuffrage association; or they might solve their economic problem by choosing to starve rather than to be unmanly.

2. Women's duties are already too heavy. They have no time for politics. As a matter of fact, it would be better if men also had no vote, for the arduous duty of supporting families leaves them little leisure for public affairs.

3. Woman's brain is inferior to man's and is not equal to grappling with questions of government. To woman should be inducted only such unimportant matters as the provision of wholesome food in a well-ordered home, and the training of children who shall be the future rulers of their country.

4. Any woman can accomplish all that is necessary by indirect influence. It is more womanly to wheedle and manage her husband or father than to lower herself by a straightforward vote at the polls.

5. Women have made themselves a nuisance wherever they have been given equal consideration with men. In colleges they often outrank the men, and in clubs they form the larger part of the conversation and monopolize the benevolent work.

6. Women should not vote unless they are prepared to go to war. The fact that a very small proportion of all men ever carry arms and that a very large proportion of all women risk their lives in child bearing has nothing to do with the question.

7. Where women vote there is always a great deal of "fool" legislation, such as child labor laws, antismoking laws and food inspection laws.

8. The liquor and vice interests of

the country are unanimously opposed to woman suffrage, and the opinions of such important groups of persons should be respected.

9. Our country is an aristocracy and all safe and sane people much wish to keep it so. It would be better to deprive of the vote all men not millionaires than to give it to women.

10. The slogan of our ancestors in the American revolution, "No taxation without representation," was nonsense. They would have been better off to remain subjects of Great Britain.

**SLOVENLY ENGLISH AT YALE**

From the New York Sun.

NEW HAVEN, Conn.—Prof. Henry N. MacCracken of the English department

The announcement that the "Count of Monte Cristo" has been translated in pictorial pantomime, however, possesses more than a great literary importance, aside from the fact that the story, which has been translated into every modern language, is now presented in the universal language of pictures. But added to this distinction is the prominence of the fact that the guiding character of this masterful tale is portrayed by its greatest interpreter will now illustrate his strange career through the vivid and faithful agency of the film.

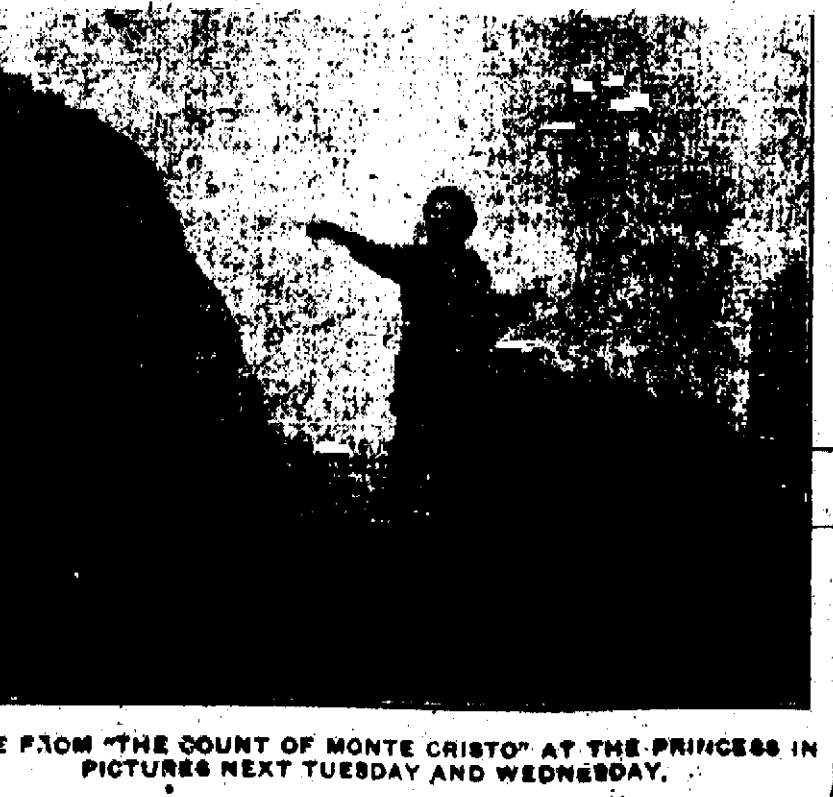

All the hope and despair experienced by the honest sailor lad whom fate tortures and tortures, all his dreams and hopes and disappointments, are typified by Mr. O'Neill's vigorous art and they develop into a serious semphore of the moving emotions that Dumas intended to weave into the story, and with which he so capably succeeded in surrounding his character.

The picture will be shown at the Princess Tuesday and Wednesday.

## What the Press Agents Say

**PRINCESS**

Another noted star has joined the gallery of famous players, to enact his greatest characterization before the camera. James O'Neill, the world famous romantic actor, whose interpretation of the leading character in "The Count of Monte Cristo" is considered one of the greatest artistic triumphs in the history of dramatic art, will perpetuate his admirable portrayal in this role for the Princess Players Film company and posterity. Few stories are better known or more popular than this stirring, human tale of Dumas, and perhaps no other fiction character has ever made such an impression on all the reading races of the world as the leading figure of this great masterpiece.

SCENE FROM "THE COUNT OF MONTE CRISTO" AT THE PRINCESS IN PICTURES NEXT TUESDAY AND WEDNESDAY.

# The Bear, Bead Days Of Steamboating

"Mark twain."  
"Eight feet."  
"No bottom."

One who has spent days and nights on the Mississippi River, listening to the negro roundabouts shouting their "soundings" to the pilot in his cabin on the uppermost portion of the flat-bottomed steamboats that sail from St. Paul to the delta of the great river below New Orleans, will never forget the monotonous half-song of the inland negro, although the great days of steamboating long have passed.

Again the old song of the captain, instructing his pilot in making a landing will never be forgotten.

"If your couple turn over, come around on a byside," is the captain's order as the great steamboat is swinging slowly into dock. A bell rings, the outside wheel turns slowly, while in response to another bell, the inside wheel turns rapidly.

"Stop her!" shouts the captain. A ringing of bells and the great ship slowly stops with her "nose" a few feet in the soft mud of the river bank.

"Tide away!" shouts the mate. "Tide away!" The great pluck of the ship's side or forty negroes, standing on the landing and shouting to the boat, come to the aid of the mate.

"Get it!" "Get it!" howls the mate. "Get it!" "Get it!" howls the mate. "Get it!" "Get it!" howls the mate.

There is a great deal to be in the old days of steamboating. The old days of steamboating. The old days of steamboating. The old days of steamboating.

Now the trade on the Mississippi is falling. No longer do the great steamboats travel the great Father of Waters. The railroads have taken away a large percentage of the travelers and the boats are used only in "landing" and "hauling."

Yet, with the disappearance of the railroad, there is still a great deal of business connected with steamboating on the Mississippi, as the steamboat is still the most reliable mode of transport for the Robert E. Lee.

There were great races in those days, the old days of steamboating. The old days of steamboating. The old days of steamboating.

Tales that old river men tell to-day include many such episodes. Steamboats often raced to obtain the government mail contract, as railroad trains now contest. In such events the engineers and firemen went out to the extent of burning kerosene, bacon and various knots to set up a great pressure of steam. The river men, who recollect the "bear" days of steamboating, declare that in such races it was no

uncommon event to place one or two negroes on the safety valve, so that all the steam generated would go to the mighty engines that turned the great paddle wheels.

The occasional fate of such daring captains and pilots is well described in the song "Steamboat Bill" that ends up with the line, "He's Now a Pilot in the Promised Land."

Explosions were frequent in the days of racing and the unity of captains, pilots, engineers and mates against each other was great.

Such rivalry still exists in a manner. It is but a few years ago that four steamboats, leaving the St. Louis harbor for the North, raced for the Alton Bridge, several miles above the city, and employed every means to defeat the other.

One of the means used was the dangerous "wheel-looker." A clever pilot could run his boat alongside a rival and catch his paddle wheel in that of his competitor in such a way as to disable it but keep his own vessel safe.

It is said also that jealous pilots even nosed their boats into that of a rival, endangering the lives of the passengers.

When a boat going up stream approaches one downward bound, it gives the signal as to which side it is to pass. One blast of the whistle means the upward bound boat intends to go to the right. Two blasts mean to the left. The signal is answered by the other pilot.

If one pilot in going to the right of the channel were to strike, he might find the other, with him, in the midst of the water.

That's the way it was, the old days of steamboating. The old days of steamboating. The old days of steamboating.

The steamboat of the early days were the main passenger carriers and were of great service to both armies in the Civil War. They carried freight more cheaply than it is carried by the railroad today. It also is said that steamboats were faster than they are now.

Today there are but few passenger boats on the Mississippi and Ohio rivers as compared with the numerous craft that steamed the inland "water" forty years ago.

The old pilots are gone, all of the famous captains of other years with but too few exceptions have passed to the other shore. Yet people of the West remember the veterans of the river for their deeds of bravery.

There has been many a "Jim Bludsoe" on the Mississippi River. The original poem told of a pilot, whose boat was afire, keeping his vessel headed toward the shore un-

til his deeds of bravery have all been forgotten.

The pilot, who feels his way along the channel at night, is guided by a way by the hand of Providence. With only the government lights that mark an ever changing channel, as his guides, he goes through impossible places steered by his own intuition.

What passenger has not felt a thrill when in the night he hears the huge bell on the hurricane deck of the steamer ring its signal of "one" for the "lead" on the right side and two on the left. In answer to this call the mate appears with the lead with its rope line, and its leather marks telling him the depth of the channel he is sounding.

A negro appears on the hurricane deck and communicates the findings of the officer to the pilot.

"Quarter twain," calls the mate. "Quarter twain," repeats the deck hand in a monotone.

"Eight feet," comes the call, as the pilot slowly noses his way forward.

"No bottom," is the encouraging call.

It means that the vessel has passed over a sandbar and is reaching deep water. "No bottom" repeated several times means the boat is cleared of a dangerous bar and is once more in the channel.

As a sidelight on the work of the river, nothing can be more entertaining or shocking than the language of the mates.

Tennessee River mates were called the most profane officers in the country. They were also more

Memories of the Mississippi River's Halcyon Past With the Good Ships With Flat Bottoms and Round Paddle Boxes Strained Their Boilers to the Exploding Point in Races for Speed Supremacy.

ing signal, but there was not a regular height and position of the signal on the levee who could not name the boat by its blast.

When such a boat, carrying port hundreds of negroes was to the

The hearts of the old river men are sad as from day to day they see the levee and loss of the grand old line that steamed the "Great River."

Now the old familiar scenes have passed. Boats have sunk, been burned or wrecked and never rebuilt or replaced. Many of the remaining side wheelers have been converted into excursion boats, while only a few now ply the Mississippi in the

they will ever take pleasure in the recollection of the halcyon days of steamboating when brave men risked their lives on their steamers to prove their speed against that of a rival.

Now the sound of the steamboat

A remarkable photo of a boat race near Eads Island in St. Louis was taken from an aeroplane flying over the Mississippi River.

severe in treating their crews and many a negro has felt the sting of a bullet or the lash of the mate's club.

Now, however, these old negroes who spend their time lounging in the sun on the docks and levees

along the river, are the only remnants of the great days of steamboating with the exception of a few boats now plying the Mississippi.

Now the sound of the steamboat

whistle as a vessel makes its way into port is to them but a requiem for the days of the past. The two long blasts accompanied by three short ones, a signal used by a certain large steamboat company, recalls to them the time when the levee resounded all night and day with such blasts. The signals, they knew them all. A boat might be a mile away when it sounded its land-

levee to aid in unloading. There was plenty of work for all of them, for in the days of thirty and forty years ago often more than 100 steamboats landed in St. Louis.

Now the old familiar scenes have passed. Boats have sunk, been burned or wrecked and never rebuilt or replaced. Many of the remaining side wheelers have been converted into excursion boats, while only a few now ply the Mississippi in the

they will ever take pleasure in the recollection of the halcyon days of steamboating when brave men risked their lives on their steamers to prove their speed against that of a rival.

day include many such episodes. Steamboats often raced to obtain the government mail contract, as railroad trains now contest. In such events the engineers and firemen went out to the extent of burning kerosene, bacon and various knots to set up a great pressure of steam. The river men, who recollect the "bear" days of steamboating, declare that in such races it was no

## FORBES-ROBERTSON GIVES HIS REASONS FOR LEAVING STAGE

Greatest English Actor Does  
Not Want to Become a  
"Back-Number"  
Wishes to Be Remembered by  
Work While at the Apex  
of His Powers

Why the foremost figure on the stage today—a man who ushered in the modern problem play and who won surer and more lasting fame as the greatest English actor of our time—retire from the theater while yet at the height of his powers is a question which has been puzzling students of the higher drama since the announcement last year by Mr. Forbes-Robertson that he would soon leave the stage. And the majority of the admirers of this great actor in this country are still striving vainly to satisfy themselves on the point.

While on his farewell tour of England this season, Mr. Forbes-Robertson is planning a special lecture to be delivered at the Scala Theatre in which he will very simply and vividly recount to the present time, incident by incident, the history of the theater and of his own career. Ray Venable, the late editor of The Herald and with Mr. Forbes-Robertson, is at this interview to the Herald.

When asked why he is leaving the stage, Mr. Forbes-Robertson said: "I am not leaving the stage because I am tired. I am leaving because I am not interested in the stage any more. I am not interested in the stage because I am not interested in the stage any more. I am not interested in the stage because I am not interested in the stage any more."

I asked him why he was leaving the stage. He said: "I am not leaving the stage because I am tired. I am leaving because I am not interested in the stage any more. I am not interested in the stage because I am not interested in the stage any more. I am not interested in the stage because I am not interested in the stage any more."

He said: "I am not leaving the stage because I am tired. I am leaving because I am not interested in the stage any more. I am not interested in the stage because I am not interested in the stage any more. I am not interested in the stage because I am not interested in the stage any more."

He said: "I am not leaving the stage because I am tired. I am leaving because I am not interested in the stage any more. I am not interested in the stage because I am not interested in the stage any more. I am not interested in the stage because I am not interested in the stage any more."

He said: "I am not leaving the stage because I am tired. I am leaving because I am not interested in the stage any more. I am not interested in the stage because I am not interested in the stage any more. I am not interested in the stage because I am not interested in the stage any more."

He said: "I am not leaving the stage because I am tired. I am leaving because I am not interested in the stage any more. I am not interested in the stage because I am not interested in the stage any more. I am not interested in the stage because I am not interested in the stage any more."

He said: "I am not leaving the stage because I am tired. I am leaving because I am not interested in the stage any more. I am not interested in the stage because I am not interested in the stage any more. I am not interested in the stage because I am not interested in the stage any more."

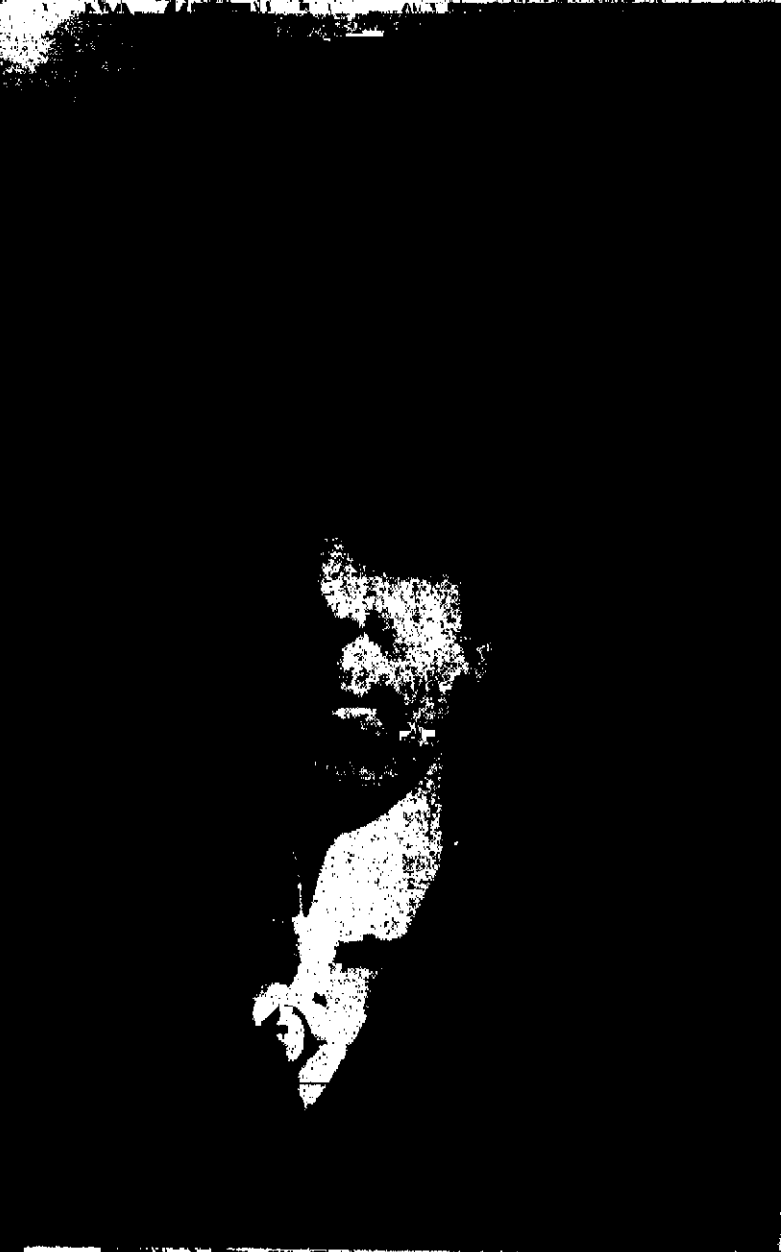

He said: "I am not leaving the stage because I am tired. I am leaving because I am not interested in the stage any more. I am not interested in the stage because I am not interested in the stage any more. I am not interested in the stage because I am not interested in the stage any more."

He said: "I am not leaving the stage because I am tired. I am leaving because I am not interested in the stage any more. I am not interested in the stage because I am not interested in the stage any more. I am not interested in the stage because I am not interested in the stage any more."

Miss Olive Vail and a Few Fun Makers in "The Girl From Mumms"

BILLY CLIFFORD  
In "Believe Me" at the Opera House tomorrow night.

## CARUSO IS NO LONGER POPULAR IDOL OF PAST

Cri de Paris prints a rather pathetic story about Caruso's decline as a popular idol. His appearance in a performance of "La Boheme" failed to draw the usual Caruso crowd, and the finance sale was so light that at the tenth hour the stakes speculators lifted an enormous petition to the management, urging her to sing with Caruso. The advanced theatergoers, however, were all the poorer for it.

was persuaded, and the day was saved for the Italian. In profound dejection, and humiliated to the core, the story continues, said to the other singers, who sought to console him in the dressing room: "No, Caruso is no longer the first tenor of the world. Now he is only a poor baritone."

December 8 has been named as the date for the first rehearsal of Miss Maude Adams' new J. M. Barrie play, "The Admirable Crichton." January 19 is the probable date for the first New York appearance of Miss Adams in this play. A cycle of Barrie comedies is also included in Miss Adams' coming New York season. This will be the first time that she will appear in a new Winter Garden production.

Barrie's earlier comedy, "Quality Street," a new production of "The Little Minister," and the hitherto unproduced Barrie fantasy, "The Ladies' Alibi," are also included in the cycle. This last will be preceded by Miss Adams' appearance in "The Admirable Crichton."

"The Passing Show of 1912," which has been playing continuously for a year and a half, will remain on tour till the latter part of December. The present attraction at the Winter Garden, "The Pleasure Seekers," will remain there possibly till the latter part of January, when "The Passing Show" will be seen in a new Winter Garden production.

**A**FTER so long a period during which no musical shows, in fact, few high-class attractions of any sort have been presented, this week at the Opera House surely is one of promise to Colorado Springs theatergoers. In Billy Clifford in "Believe Me" (Monday night), and Olive Vail in "The Girl From Mumms" (Saturday night), patrons of the musical comedy class of present-day productions should find two evenings of most pleasant diversion.

"Believe Me" is Clifford's newest musical satire and apparently has found as much favor with the theater-loving public as his former successes. Especial attention has been paid by the producers to the costuming, staging and scenic effects.

"The Girl From Mumms" is a rollicking musical show based on a French farce full of complications and ludicrous predicaments. The plot is much the same as those of numerous other musical comedies, particular "Alma" but plot counts for little in productions of this kind. And the music is said to be really good.

## WHAT THE PRESS AGENTS SAY

### "Believe Me"

At a recent gathering of stage folks at an after-the-play supper the conversation drifted into reminiscences of youth.

Miss Mae Collins, with "Believe Me," which plays at the Opera House Monday night, told the following experience and it was voted that she step to the head of the class.

"When about 12, a girl friend of mine and I tossed ourselves out in new outfits and put ourselves under public inspection at church on Easter Sunday morning. After services we determined to take dinner at the leading hotel, which had advertised a special Easter table d'hôte dinner. There had been no price reduction in the advertisement and our excitement in well hotel dinners had not yet become very extensive. After we had enjoyed the dinner we asked the clerk the amount of our bill and he replied two dollars, one dollar each. You can imagine our Easter feelings falling when we discovered that we only had one dollar between us.

"Of course we tendered this as part payment, promising the other dollar as soon as we could go home and get it. The proposition was refused. The proprietor was called and to him I offered my birthday present, a watch, as security, which he refused. I was

Did it ever occur to you that man, no matter how attached to one woman or how strenuously he strives to walk the straight and narrow path, will invariably turn, stall and stumble tempted by a pretty 'pippin' smile from a stunningly handsome girl possessing the magnetism, personality and grace of Miss Cleo Marcette, the leading comedienne role of "The Girl From Mumms," that dainty, fascinating, Parisian musical cocktail, book by J. A. Lacy, lyrics and music by Fred A. Bohnhorst, which Sheehan & Beck of

realizing that this was his only opportunity of getting even. So he demanded as payment in full that we go into the kitchen and wash the hotel dishes for one hour, which we did. If you can picture us in our dirty all-dressed washing dishes in that kitchen, try the way "have you ever been in a hotel kitchen?" then you can realize our humiliation.

"The sight of that proprietor too many times been an incentive to commit murder, but on my occasional visits to the old home I find that he still continues the hotel business unmolested and I often wonder how many others have learned from him the lesson. Always ask the price, as I did."

### The Girl From Mumms

George Ainsworth, a lifelong friend of Hamilton's and an ardent admirer of Miss Busby, arrives and embarks upon a voyage of love-making with Ethel that for daintiness and sweetness has no equal.

With James dining and winning Cleo, Ainsworth vociferously making love to Ethel and Hamilton doing his utmost to have Cleo leave his home, excitement runs high at the Hamilton domicile. Suddenly Mrs. Hamilton returns, disdaining her identity as an impostor, but immediately embarks upon the difficult task of transferring James' affection to the rightful Miss Busby, but is outwitted at every point. Ainsworth's sea of love is kept extremely rough by Hamilton. Finally Hamilton is forced to admit that Ainsworth is neither Cleo's husband, sweetheart nor is he a widower, but a fresh, well-disciplined, dashing lover that any girl could well be proud of. Cleo and James become suspicious that a grove is on foot to separate them, and an elopement is planned and executed quietly, and only at the finale of the last act is the marriage revealed by Cleo with the following phraseology: "We've been and gone and done it! When both are received with open arms. Ethel comes the happy day for George. Jack comes, and the curtain falls upon a happy, contented household, and "The Girl From Mumms" lives happily ever after."

for at the Opera House next Saturday. The narrative of "The Girl From Mumms" revolves around one, "Cleo Marcette," captivating and pretty. After meeting with an automobile mishap, she lost her way in a park while looking for a garage, and accidentally meets one Jack Hamilton, who is trying to while away a few lonely hours during his wife's absence. Hamilton obliges Cleo and secures a machinist, and while temporary repairs are being made on Cleo's car, Cleo and Jack enjoy each other's company. After an hour's motoring, Hamilton bids Cleo a fond good night, but in parting accidentally leaves with Cleo his gold match box, which has his full name and address engraved thereon.

The following morning, Hamilton receives important mail, stating that his niece, Miss Ethel Busby, immensely wealthy and equally as pretty, will arrive the same morning, to make her permanent home with him. Great preparations are made for Miss Busby's reception by Mrs. Anglewood (Hamilton's mother-in-law) who has her eye on Miss Busby and her huge fortune, as a great match for her son James.

In the meantime, Cleo Marcette pays a visit to the Hamilton mansion to return the gold match box and to become better acquainted. Disguised in the same room with Hamilton is Mrs. Anglewood, and being unable to account for her presence, Cleo is introduced as Miss Ethel Busby. The disguised niece and her aunt give a reception befitting a queen. A few minutes later, the genuine Miss Busby appears upon the scene and it is Hamilton's difficult task to keep the two nieces apart.

George Ainsworth, a lifelong friend of Hamilton's and an ardent admirer of Miss Busby, arrives and embarks upon a voyage of love-making with Ethel that for daintiness and sweetness has no equal.

After an hour's motoring, Hamilton bids Cleo a fond good night, but in parting accidentally leaves with Cleo his gold match box, which has his full name and address engraved thereon.

The following morning, Hamilton receives important mail, stating that his niece, Miss Ethel Busby, immensely wealthy and equally as pretty, will arrive the same morning, to make her permanent home with him. Great preparations are made for Miss Busby's reception by Mrs. Anglewood (Hamilton's mother-in-law) who has her eye on Miss Busby and her huge fortune, as a great match for her son James.

In the meantime, Cleo Marcette pays a visit to the Hamilton mansion to return the gold match box and to become better acquainted. Disguised in the same room with Hamilton is Mrs. Anglewood, and being unable to account for her presence, Cleo is introduced as Miss Ethel Busby. The disguised niece and her aunt give a reception befitting a queen. A few minutes later, the genuine Miss Busby appears upon the scene and it is Hamilton's difficult task to keep the two nieces apart.

George Ainsworth, a lifelong friend of Hamilton's and an ardent admirer of Miss Busby, arrives and embarks upon a voyage of love-making with Ethel that for daintiness and sweetness has no equal.

for at the Opera House next Saturday. The narrative of "The Girl From Mumms" revolves around one, "Cleo Marcette," captivating and pretty. After meeting with an automobile mishap, she lost her way in a park while looking for a garage, and accidentally meets one Jack Hamilton, who is trying to while away a few lonely hours during his wife's absence. Hamilton obliges Cleo and secures a machinist, and while temporary repairs are being made on Cleo's car, Cleo and Jack enjoy each other's company. After an hour's motoring, Hamilton bids Cleo a fond good night, but in parting accidentally leaves with Cleo his gold match box, which has his full name and address engraved thereon.

These are mostly new patterns received this past month.

## Sachet Powders for Sweetly Finishing Christmas Presents

Sachet Powders at 50c an ounce. Buy any quantity you desire from our bulk stock of the following odors: Hudnut's Violet Set, Wood Violet, White Rose, Virginia Rose, Elaine and Gardenia, and Vantine's Wistaria Blossom, Vantine's Sachet Powders, in small bottles, Sandalwood, Giesha Flowers, Oriental Orange Blossom, Corylopsis and Vioranta - 25c a bottle.

## Beautiful Silk Stockings Gifts

Silk Stockings will ever retain their popularity as gifts to women, because of their beauty and desirability. These will make distinctive presents:

Women's Silk Stockings "Our dollar leader," in black, white, tan, gray, lavender, green, red, Copenhagen blue, Wistaria, pongee and pink; double soles, high spliced heels and reinforced toes \$1 a pair.

Kayser's Italian Silk Stockings. The kind that don't rip or run, double heels and toes. A perfect-fitting shape \$1.50 pair.

## Good Values and Better Grades in Women's Underwear

Women's Richelieu Union Suits. "No seam in the side." That's one thing that makes these suits so popular. Another is their superior fit and the other is the fact that every suit gives satisfactory wear.

Three weights of fine weave bleached cotton, \$1 to \$1.35, and several grades of wool suits, \$1.75 and up.

Women's Knit Skirts. Another shipment of these much-liked fleece-lined knit Skirts, 50c.

Women's Carter & Springfield Vests and Pants. White or gray in a fine weave, but heavy weight, good wool, vests with shell crochet trimmed neck and front, ankle length pants or tights \$1.50 a garment.

## Christmas Would Be Almost Impossible Without Handkerchiefs

That's why we always prepare so elaborately with Handkerchiefs—and now many of them are ready. Prices range on these dainty plain lace trimmed and embroidered handkerchiefs from 5c upward.

Plenty for men at the same prices. Just now we are showing several specially priced lines.

Women's 35c Handkerchiefs, 25c.

Women's 50c Handkerchiefs, 39c.

Men's pure linen-initialed Handkerchiefs, our special leader to induce early Christmas buying, very special at 12 1/2c each.

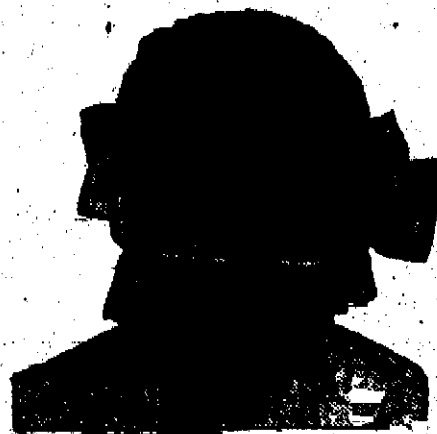

# Mind Expands As Health Returns

In great part is noticeable  
 as a result of the  
 health is given

state of the general health is  
 accepted as a case of a  
 child in the case of a  
 building up its health. It will  
 be found that the main trouble  
 is food, in lack of assimilation  
 of food. In such a case should be  
 the kind of food given to the  
 child, with plenty of air and ex-  
 ercise should bring about a change  
 better.

LUCIE MERRICK

the price is only fifty cents and one  
 dollar a bottle, the latter for families  
 who need it regularly.  
 Dr. Caldwell's Syrup Pepsin has no  
 equal as a cure for constipation, in-  
 digestion, biliousness, headaches, sour  
 stomach, gas on the stomach, liver  
 trouble and kindred complaints. It has  
 so many advantages that those who  
 once use it forever after discard cat-  
 cathartics, salts, pills and other coarse  
 remedies, for they are seldom advis-  
 able and should never be given to  
 children.  
 Families wishing to try a free sam-  
 ple bottle can obtain it postpaid by  
 addressing Dr. W. B. Caldwell, 412  
 Washington St., Monticello, Ill. A  
 postal card with your name and ad-  
 dress on it will do.

## KRUPP SCANDAL IS GREAT WORRY TO THE GERMAN

CONSIDERS IT NATIONAL  
 DISGRACE

Jews Demand Equality of  
 All People Within  
 the Empire

By FREDERICK WERNER.  
 BERLIN, Nov. 29.—It is not too  
 much to say that the German people  
 feel very keenly the disgrace of the  
 revelations of the recent Krupp trial.  
 When heretofore we have heard of of-  
 ficial corruption in other countries we  
 have raised our eyes heavenward in  
 horror and thanked the Lord that  
 though such things were possible in  
 France, America and Russia they  
 would never happen in Germany. And  
 during all this time they have been  
 going on under our very eyes. The  
 only way in which we seem to be dif-  
 ferent is that apparently German of-  
 ficials are tempted by smaller bribes.  
 A strong party has arisen in Ger-  
 many which insists that we have un-  
 necessarily brought this public disgrace  
 upon ourselves and that the Krupp  
 trial was not necessary. The majority  
 of Germans, however, agree that they  
 cannot see how it might have been  
 avoided. Radical papers, on the other  
 side, are pointing out that there was  
 another way, which would have been  
 just as efficient and more dignified  
 and which would have made it un-  
 necessary to let all the world know  
 that German officials had been found  
 ready to betray state secrets in return  
 for cigars, suppers and bribes no larger  
 than a tip to a waiter in a first-class  
 restaurant.

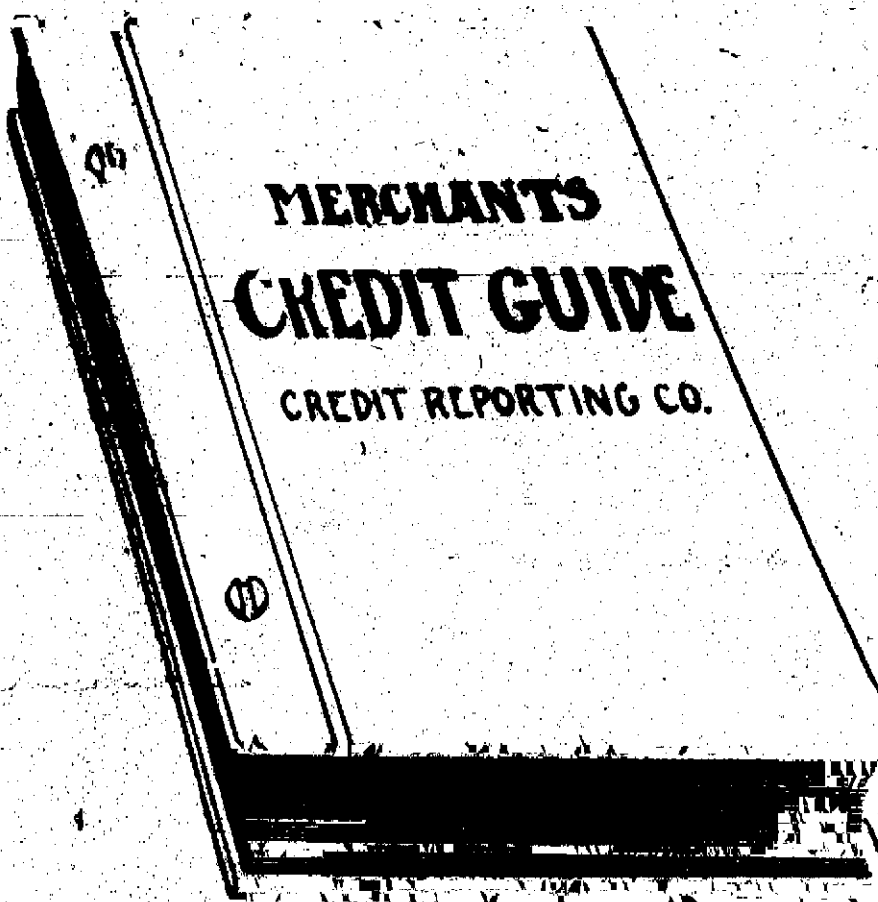

What English Would Do.  
 These papers depict what would  
 have happened in England under sim-  
 ilar circumstances. In that country  
 the government would quite naturally  
 and spontaneously have turned to the  
 forum with which it shares the respon-  
 sibility of guarding the empire's  
 parliament. A party of every con-  
 sideration would have been found to  
 matter, and the public would with full  
 confidence have added the verdict of  
 such a tribunal.  
 The Germans, "what does not fill  
 quite the same as the English  
 party, but this was not a  
 prevent it from appearing in con-  
 sideration to the matter and it  
 would have done so had it  
 been asked by the government. But  
 this was the very thing which the  
 government most of all tried to avoid.  
 It shuddered at the very thought of  
 inviting a commission appointed by  
 the Reichstag with powers of investi-  
 gation, but there is every reason to be-  
 lieve that it will no longer be late to  
 do so should a similar case ever arise.

The Jewish Question.  
 At a time when interest in the Jew-  
 ish question is still very strong, as a  
 result of the recent ritual murder trial  
 in Russia the Association of German  
 Jews has held its national conference  
 at Hamburg and after it had been  
 pointed out that in spite of the many  
 eminent services rendered the state by  
 the Jews, there had not yet been  
 given absolute equality with other  
 citizens the following resolution was  
 unanimously adopted:  
 "It shall be our effort to make  
 known to everybody the tenets and  
 principles of the Jewish faith. We de-  
 nounce and oppose all presentations of  
 the Jewish faith tending to make it  
 appear that it does not fulfill all the  
 strictest demands of morality. We are  
 fighting for and demand the absolute  
 equality of all German citizens regard-  
 less of religion. We demand particu-  
 larly that Jews be given equal oppor-  
 tunities and privileges in the army  
 with Christians. We demand that the  
 state subsidize all religious com-  
 munities as long as it subsidizes any.  
 We oppose taxation of Jews in order  
 to subsidize Christian churches. We  
 demand that the government shall  
 use all its influence with the govern-

# Our Second Anniversary

December 1st,  
 1911

December 1st  
 1913

The Credit Reporting Company's Service  
 has been established two years. It is the  
 largest and most successful local mercan-  
 tile agency in the Rocky Mountain States.  
 The Merchants Credit Guide "The Blue  
 Book" is an up-to-date publication in a  
 class by itself. It contains the names of  
 13,920 credit buyers rated in an accurate  
 and intelligent manner. The Guide was  
 thoroughly revised and reprinted Septem-  
 ber, 1913, and we are now printing an ab-  
 stract of the 1913 real estate and personal  
 assessments of every individual in El Paso  
 County, which will soon be placed in the  
 book. We are the only mercantile agency  
 in Colorado serving the retail merchants  
 that issue written reports containing full  
 antecedents, resources and trade ex-  
 periences on every individual reported.

Credit information, the kind that protects, must  
 be gathered from reliable sources and by one  
 who has a keen sense of what credit confidence  
 means. As for example, one who does not pay  
 his own bills promptly can no more give reliable  
 credit reports than the saloon keeper could con-  
 sistently preach a temperance sermon.

We have a special course of training for de-  
 beats that makes them appear honest by paying  
 the bills they owe. Our collection department  
 collects the money, reports to you the day we  
 get it, and on the first of each month send you  
 a check for every cent that is coming to you.  
 Let us collect your slow pay accounts.

LONDON, Nov. 29.—Mrs. Bradley  
 Martin is one of the prominent host-  
 esses of the London season. She also  
 entertained a large number of guests  
 at Balmacan for the shooting. She  
 had rented the famous forest from the  
 Countess of Seafield. In a single day  
 fourteen stags, averaging 210 pounds  
 in weight, were bagged. Among the  
 guests were Mrs. Martin's son-in-law,  
 the Earl of Craven, and her grandson,  
 Lord Uffington.

ment of Russia to see that German  
 Jews are granted equal rights with  
 Christian German subjects to enter and  
 travel about in the empire of Russia.  
 We oppose all official restrictions  
 treating Jews different from Chris-  
 tians.

Meats Still Soaring.  
 The prices of meat continue soaring  
 and in consequence the city of Berlin  
 will in a very near future establish a  
 new municipal slaughter house for  
 horses. The consumption of horse  
 meat is rapidly increasing but there  
 are complaints that the control of the  
 authorities is not strict enough and  
 that quantities of horsemeat abso-  
 lutely unfit for human food is being  
 imported from abroad and sold to the  
 poor in this city. The St. Petersburg  
 correspondent of a Berlin paper states  
 that a Russian who previously buried  
 the carcasses of old horses slaughtered  
 for their hides at Rostov and Dorpat  
 has recently been making a big profit  
 by selling down this horse meat and  
 sending it to Berlin. Such a thing  
 ought to be impossible if customs regu-  
 lations were properly enforced, but  
 bribing has been hinted at and the  
 opposition press is demanding a thor-  
 ough investigation.

Germany on Naval Holiday.  
 Captain Persius, a retired German  
 naval officer and a famous naval ex-  
 pert, has been highly complimented by  
 the German people for the excellent  
 manner in which he has in an open letter  
 to Winston Churchill found exact ex-  
 pression for the feelings of a majority  
 of the German people towards the  
 English minister's proposal of a 12  
 months' "naval holiday." Captain  
 Persius wrote in part:  
 "Above all, we in Germany think  
 that you have put the art before the  
 horse in addressing this suggestion in  
 the first instance to Germany. It will  
 not be unknown to you that the navy  
 is the German's greatest pride. It is  
 his favorite child, which the present  
 generation has brought up from the  
 cradle. It almost seems a personal in-  
 sult to the German to suggest that he  
 should stop the growth of his beloved  
 navy. You should not try to introduce  
 this factor into your calculations.

Before you address to Germany  
 your proposal for a holiday year you  
 ought to have taken into account the  
 black and white the Government of the  
 United States (which it seems has  
 already been given, and above all, of  
 France and Russia. It is improbable  
 that Germany would have then lagged  
 behind. German civilization is cer-  
 tainly not as powerful as some think.  
 "Further, you ought to rest assured  
 that perhaps in no other country in  
 the world does the question of war and  
 peace as well as of the increase or  
 reduction of armaments depend so lit-  
 tle on the nation as Germany. Of  
 course we have a parliament, but I  
 need not describe the small influence  
 which it enjoys. It is the will of the

government—its "air solo, air flukes"—  
 which is the all-powerful factor, and  
 the government is peaceful to the mar-  
 row of its bones, because it is world-  
 wise and practical enough to know  
 what a war would cost. Do not give  
 up the hope that with the right method  
 of setting about the business practical  
 compromise will assert itself in Ger-  
 many and your proposal will be ac-  
 cepted.

AN ARTIST'S "POT O' JELLY"  
 From the Cleveland Plain Dealer.  
 "Somebody ought to put old Mrs.  
 Simpkins right," said a local art patron  
 excitedly. "I haven't the nerve to cor-  
 rect her myself; she won't take any  
 hints."

"What's the matter?"  
 "Well, she evidently thinks that our  
 loan exhibition is to be something like  
 a county fair. She says she is going to  
 lend us a pot of jelly for an exhibit."  
 "Nonsense! You must have misun-  
 derstood her. She is a connoisseur and  
 she possesses some rare pictures her-  
 self. Just what did she say?"  
 "Just that. She said 'I'm going to  
 lend 'em a pot o' jelly that'll make 'em  
 all sit up and take notice.'"  
 "Ah! What she said, my dear sir,  
 was a 'Botticelli!'"

A YOUTHFUL MAGPIE  
 From National Monthly.  
 Some one had given little Willie a  
 pocket compass. His father fully  
 explained the difference between  
 "See," said she, "You have the  
 in front of you, the east to the right  
 and the west to your left. Now—  
 have you behind?"  
 "Willie looked shocked—" Ah...  
 "There!" he exclaimed, "I got it!"  
 "I knew someone would sit up and  
 patch, but mother says I got to—  
 these pants all the rest of the month.

## I Invite Suffering Women

There is every reason why women should not trust their deli-  
 cate constitutions in the hands of unskilled persons. It requires a thorough medical  
 education to appreciate and understand the delicate female organism. There is  
 every reason why she should write or personally consult an experienced specialist.

As a powerful, invigorating tonic, "Favorite Prescription" im-  
 parts strength to the whole system and to the organs distinctly fe-  
 male in particular. For "run-down," debilitated women of all conditions.

## DR. PIERCE'S Favorite Prescription

is unequalled as a restorative tonic. As a soothing and strengthening nerve  
 "Favorite Prescription" allays and subdues nervous excitability, irritability  
 nervous exhaustion, and other distressing symptoms commonly attendant upon  
 functional and organic diseases of the feminine organs. It induces refreshing  
 sleep and relieves mental anxiety and depression.

Dr. Pierce's Favorite Prescription is devised and put up by a physician of  
 vast experience in the treatment of women's maladies. Its ingredients have  
 the endorsement of leading physicians in all schools of practice.

The "Favorite Prescription" has been  
 sold by dealers in medicine in its liquid  
 form for over 40 years. Now it can also be  
 obtained in tablet form—or send 50 cents  
 stamps to Dr. Pierce for trial box.

Dr. Pierce's Pleasant Pellets invigorates the  
 stomach, liver and bowels. One to three a dose.  
 Easy to take as candy.

Send 31 one-cent stamps to pay cost of wrapping  
 and mailing only on a free copy of Dr. Pierce's Com-  
 mon Sense Medical Adviser, 1008 pages, cloth-  
 bound. Invalid's Hotel and Surgical Institute, R. V.

**ESPERANTO**  
THE NINTH INTERNATIONAL CONGRESS

(Continued)

The report of the Berne congress, begun last week, was broken off rather abruptly after an account of the opening session and the principal purely literary events, of which the presentation of Private's "Ginevra" was the most important. The congress, however, had various aspects, in which different classes of Esperantists are interested in different degrees. The annual congress itself is a developing institution. Originally a mass meeting of a purely democratic character, voting solely by acclamation, and unable to be more than an index of prevailing sentiment among those whose zeal for the cause was sufficient to induce their attendance, it has very lately become an actually representative assembly, in which delegates participate by virtue of their election by definite constituencies. The transition to the latter character is so new and as yet untried, that the machinery works as yet hardly ready to work. Among the topics under discussion, the two that excited the most debate were propositions that the authorized delegates should meet only biennially, and that they should have at each congress a session not open to the public—an "executive session" for the expression has been and at Washington. Both these suggestions were opposed with much vigor, and for the present, at least, with success. The remaining official congress action apparently centers about the reports of the standing committees. The central office in Paris, under General Sebert, has general charge of official institutions, and publishes the documents of the language committee and the permanent committee of congresses. It has also a section, recently organized under a separate secretary, for general propaganda, bibliography and statistics. The most important new proposition is that of an international union of Esperanto Societies, to give unity to those departments of activity in which the national Esperantist associations have hitherto acted independently, and not always, it seems to be considered, with the most efficient cooperation. The new organization is one in which the national bodies are invited to become members, and while the congress

was handicapped by the long and he lost the final score being: Mackinlay—102 strokes. May—47 strokes.

There are a good many good ones in "There's a Reason," one of his songs.

**"FISHING ROD GOLF"**  
LATEST IN ENGLAND

LONDON, Nov. 29.—Behold a new and absorbing English game, "Fishing Rod Golf," the outcome of a wager between Mr. Rupert May, a well-known British golfer, and Mr. J. H. Veckinlay, an enthusiastic fisherman, by the terms of which Mr. Mackinlay agreed to give, instead of the customary outfit of clubs and balls, his casting rod and a lead weight in a match with Mr. May, equipped with the regulation implements.

Fourteen holes were played, a large crowd witnessing the contest. The fisherman was the favorite and could have won easily but for his inability to make a good approach. Many times when the hole was well within his reach he cast very short and had to take 2 to hole out.

Mr. Mackinlay used a 2½-ounce fishing weight, a very fine line and a rod of double-bull cane. His casting reel had a free drum and a self-regulating drag which he was permitted by the rules of the strange contest to put on and off at will during the cast. He cast accurately as to direction, but

## ALONG THE SPORTSMAN'S BEAT

Yesterday's victory for the Army over the Navy was probably the biggest surprise of the football season. The Papists had been picked to win all season, and then something slipped. Often it does.

Another fine of sport for the Pike Peak region? The municipal pond at Prospect lake promises to be a popular place even before the ice melts. Yachts, motorboats and swimmers will be familiar sights some day.

Terror fans are going to banquet the team Wednesday night at the Academy hotel. A season as successful as the high school just ended is worthy of a six-course and wide talk and will do much toward increasing enthusiasm in athletics at the institution.

Joe Tinker, dethroned manager of the Cincinnati Reds, has been traded to every team in the Lynch-Tener circuit. It is understood that Alderman Coughlin is after him to manage the Sox.

If the Rocky Mountain Athletic conference wants to do something constructive it could take up the suggestions of several fans who are anxious to see a schedule among the freshmen teams of the conference. It is now the freshmen teams seldom get on and lose interest. By having the various first year teams meet there would naturally be greater interest in the game among the players who later make up the conference eleven.

Harvard's football receipts this year amounted to \$118,000. Cyah Moughton received \$7,500 for his services. The Yale game cost the Harvard management \$22,000. It is very tough the way these western types have to scrape and hustle to make both ends meet.

A comparison of 625 athletes of the U. S. Naval Academy with 100 athletes in the class of 1902-1903 shows that the athletes are in better physical condition than the athletes. Glancing at yesterday's football score and the fact that the Navy should have had a novel idea football team.

They are going to get back to the ball at Colorado. It is the worst of the winter months at New York university, but the fact that it is a single shot at the end of the year.

The University of Wyoming, which lost every game this year, is thinking of doing away with football until the school grows.

Winter football is a sport that is not popular at Colorado college and the high school at better than for some time. Both teams have an abundance of old, second-hand material and both have had a lot of outcasts. Jaw-

son will be on duty at the college with Claybaugh assisting, while at the high school Forrest Deal will be in the box. Captains Kramer and Schneider should have good teams by—well, let's see January 1.

NOTE—The Gazette's all-conference team, selected by Dr. Acker, would like to challenge that selected by the evening paper for a game to be played as soon as possible.

**Opp. Antlers**

**Five Minutes Will Win You to All-Weather Treads**

The treads are double-thick  
The rubber is extra tough  
The grips are deep and enduring  
The edges stay sharp  
They face the skidding direction  
The blocks meet at the base  
The surface is flat and smooth.

Here is a tread which runs as smoothly as plain treads. It is just as economical.

It gets rid of all features which made anti-skids costly, or made them cause vibration.

On dry roads it runs like a plain tread. To wet roads it gives an irresistible grip.

It is the tread for all wheels and all seasons. On Goodyear tires—the largest-selling tires in the world—it is outselling plain treads with users. In winter it is an essential.

Five minutes will show you that no other anti-skid begins to so meet the requirements. Some are shallow, some soft, some irregular. Some have rounded grips.

Some have separate projections which center the strains at one point in the fabric. Some cause much vibration.

Here is a flat tread, broad, smooth and regular. Here are deep grips high last for thousands of miles. Here is rubber toughened by a secret process.

## BOSTON TEACHERS MAY ORGANIZE

BOSTON, Nov. 29.—A campaign to organize the school teachers of Boston into a union "so that they may obtain higher salaries and better conditions" will be begun today, according to Miss Margaret Haley of Chicago. Miss Haley, who is a business representative of the Chicago Teachers' Union, said she had been asked by committee of present and former Boston teachers to direct the work.
